# Fixed Point

# EL-C

- Point moves on impact, reducing bounce outs
- No tools needed to remove tip
- After impact, the dart can rotate freely, letting the flight move for closer grouping
- Points are offered in 6 different lengths (XS-XL)
- Can be converted to Fixed point and Spring loaded

Converts to spring loaded ( Kit # 142 )

Converts to fixed point ( Kit # 143 )

# Mosquitos

These darts are a great training aid for both the novice and the veteran darter.

The lowest mass-to-drag ratio of any dart enables the darter to determine with pinpoint accuracy whether their dart is released correctly. This exclusive, amazing tool is phenomenally accurate and is a must-try experience! Choose from the Tungsten barrel Alaska or the Soft Tip California.

Alaska Mosquito

California Mosquito

Fulcrum / Mosquitos

# Soft Steel

- Our Version of Soft Tip, only better
- Tougher Point, lasts longer
- Point is loaded from back ( no threads )
- No tools needed to replace tip
- Easier removal from board
- Weight can easily be adjusted with a variety of inserts
- Converts to Steel Tip
